LOTUS
COLUMN LIGHTS

Direct | Surface

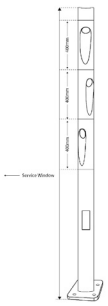

LOTUS COLUMN LIGHT is a contemporary urban decorative column lighting solution designed to enhance outdoor architectural and landscape environments with a refined and functional lighting presence. Featuring a sleek 3-meter pole structure, the luminaire combines aluminium extrusion and casting with three 360° rotatable LED modules, allowing flexible light orientation for different outdoor applications. The pole is engineered with an MS base plate for secure ground mounting and is supplied pre-wired for convenient installation.

The pole is equipped with an MCB connector and service window at the bottom section for convenient maintenance and servicing. It is primer coated and finished with not less than 90-micron Italian paint, with customizable RAL colours available to complement different architectural environments.

Divinity Lights manufactures customized lighting solutions according to clients' specific requirements, making LOTUS suitable for pathways, gardens, residential landscapes, commercial exteriors, hotels, resorts, public spaces, urban landscapes and architectural outdoor areas.
