MIST 40
SPIKE LIGHTS

Direct | Floor/ Surface

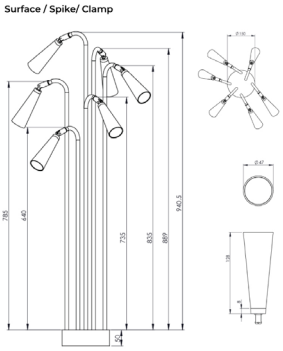

MIST 40 SPIKE LIGHTS is a contemporary outdoor spike light designed to provide functional and decorative illumination for landscape and pathway applications. Featuring a slim vertical profile with multiple downward-facing light heads, it creates comfortable, well-distributed pools of light while complementing modern architectural landscapes. The fixture is suitable for illuminating walkways, garden paths, lawns, landscaped areas, driveways, entrances, resorts, hospitality spaces and residential outdoor areas. Its robust construction and IP66 protection make it suitable for outdoor environments, while custom RAL colours are available to coordinate with different landscape and architectural schemes.

With a 47 mm light diameter, 128 mm light height, 150 mm base diameter and 940.5 mm overall height, MIST 40 provides a distinctive vertical presence without visually dominating the landscape. Divinity Lights manufactures customized lighting solutions according to clients' specific project requirements, including suitable colour finishes and configurations for pathways, gardens, outdoor hospitality areas, residential landscapes and architectural exteriors.
