NIRVI EN LENS

ENCUPSULATED LINEAR LIGHT

Direct | Surface

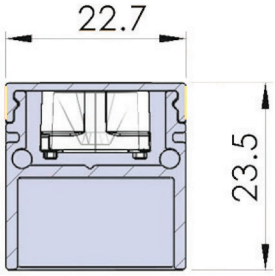

NIRVI EN LENS Encapsulated Linear Light is a versatile and high-performance linear lighting solution designed for architectural, decorative and façade lighting applications. Its compact linear profile combines a robust encapsulated construction with precision optics, making it suitable for creating continuous and controlled illumination on walls, ceilings and architectural surfaces. The fixture supports both monochromatic and dynamic lighting configurations, including RGB and RGBW, allowing designers to create customized lighting effects for different architectural environments.

With its encapsulated construction, multiple beam-angle options and DMX-compatible configurations, NIRVI EN LENS is ideal for wall grazing, architectural façades, feature walls, ceilings, commercial spaces, hotels, resorts, landscape structures and decorative architectural installations. Its compact profile allows discreet integration into architectural details while providing precise and continuous illumination.

Divinity Lights manufactures customized lighting solutions according to clients' specific requirements, making NIRVI EN LENS suitable for tailored architectural and dynamic lighting projects.
