NIRVI WALK CURVE SOFT
ENCUPSULATED LINEAR

Direct | Recessed

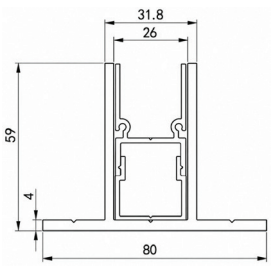

NIRVI WALK CURVE SOFT ENCAPSULATED LINEAR is a curved architectural linear lighting solution designed to create continuous, soft and uniform illumination along curved surfaces. The fixture features a sleek aluminum profile with a soft encapsulated diffuser, making it suitable for decorative and functional lighting applications where smooth curves and seamless light output are required. It is designed for recessed installation and can also be configured for direct/recessed applications.

With physical dimensions of approximately 1000mm length × 31.8mm width × 59mm height, and 80mm overall width including the base trim, NIRVI WALK CURVE SOFT is ideal for curved ceilings, feature walls, architectural corridors, retail interiors, hospitality spaces, commercial areas and other customized architectural lighting installations.

Divinity Lights provides customized lighting solutions according to clients' specific requirements, enabling curved linear lighting to be tailored for different shapes, dimensions and installation environments.
